DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

“Toonify AI – AI Powered Image Stylization Platform”

Name of Student: Mr. Pruthviraj Shyamrao Tarode

Name of the Guide: Ms. Nitu L.Pariyal

Academic Year: 2025- 2026

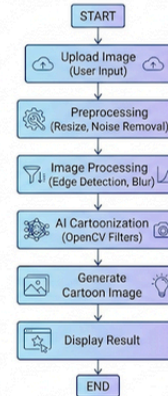

Introduction: Toonify AI is an AI-powered image stylization platform that converts real-world images into cartoon and artistic outputs using Artificial Intelligence, Computer Vision, and image processing techniques. It uses technologies such as Python, OpenCV, Flask, HTML, CSS, and JavaScript to generate creative and high-quality stylized images automatically.

SYSTEM ARCHITECTURE OF TOONIFY AI

AI Powered Image Stylization & Cartoonization Workflow

METHODOLOGY: TOONIFY AI - AI Powered Image Stylization Platform

Conclusion: Toonify AI successfully transforms normal images into artistic cartoon-style outputs using AI and image processing techniques. The project improves understanding of Computer Vision, image transformation, and intelligent software systems while providing a creative and user-friendly image stylization solution. It also demonstrates the real-world application of Artificial Intelligence in digital image enhancement and creative media generation.
